Gameplay Stronghold 3 has many new features and innovations. In Stronghold 3 you can change your fighter's gender in the Fighter Management Window (Tools Menu)Fighter Management) or if you're playing in multiplayer. Game modes In Stronghold 3 there are three distinct game modes: Story mode, Multiplayer and Survival. Story mode consists of 36 missions. With each mission you will face different and difficult challenges. Each mission consists of capturing some key points. Some missions will have a preset number of turns or days to complete. The days are random as each time the game will play the same. Multiplayer is a 5-on-5 PvP mode. In multiplayer you can play as any of the five available Fighters. Survival mode is a game mode where you must survive. You start with no weapons and everything will be taken away from you. If you die, you respawn with no weapons and you have to start the mission again. If you die 10 times, the game will end and you won't be able to play any missions. Each game in Stronghold 3 is recorded in a file known as.sbstats.txt. Stronghold 3 also allows you to upload your game and invite your friends to play on their PCs, just like in the previous games. The computers are randomly selected (as always) from all the users with the game. Soundtrack The Stronghold 3 soundtrack is by Giorgio and a mix of his previous tracks with new compositions.
