Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged.Mild-to-moderate obstructive sleep apnoea (OSA) affects about 10% of the population and substantially increases the risk for cardiovascular disease, cerebrovascular accidents, malignancies and all-cause mortality. Current treatment options - continuous positive airway pressure (CPAP) or surgical weight loss - are only moderately effective, and the prevalence of co-morbidities precludes their use. Accordingly, improved treatment options, including new therapies, are critically needed. Several lines of evidence suggest that moderate OSA is associated with increased metabolic and inflammatory activity. However, detailed understanding of pathophysiological mechanisms and the origin of systemic inflammation is presently limited by the lack of a reliable non-invasive biomarker of systemic inflammation. The overarching goal of this proposal is to identify novel biomarkers that can differentiate between patients with mild-to-moderate OSA and healthy controls, and track disease progression and response to therapy. The central hypothesis is that OSA induces chronic systemic inflammation, which leads to enhanced generation of pro-inflammatory mediators and nitric oxide (NO). Several of these
